CBD PRODUCTS YOU CAN TRUST *Go Green. Make Green.*

ABOUT GOGREEN HEMP

GoGreen Hemp is home to one of the most affordable phytocannabinoids in the USA. Our company was founded in 2016 in Fort Mill, South Carolina. We strive to provide our customers with an affordable option in the CBD market. All of our products come from a licensed farm that is registered with the Colorado State Department of Agriculture. All of our phytocannabinoid rich hemp is grown in full compliance under section 7606 of the 2014 federal farm bill.

OUR MISSION

GoGreen Hemp is a family owned company and the exclusive distributor of GoGreen Hemp Oil, one of the most affordable CBD products on the market. GoGreen was founded in 2016 under its chief principles of providing quality products at the most affordable prices on the market. Our company goal is to serve and educate our customers about the incredible power of CBD and its potential to change the lives of many in different realms. At GoGreen hemp, we are driven by the potential of educating our customers and making a difference in their lives. We pledge to further educate not only our customers, but also the public about the incredible potential hemp plants have.

EXTRACTION & PURIFICATION

All of our products use a complete plant profile. Our extraction and purification process takes place at a 100,000 square-foot, state of the art extraction facility in Colorado. Our proprietary extraction technology allows for high levels of phytocannabinoids, while also eliminating unwanted chlorophyll and THC. Using the chromatography technique, which allows for the identification and complete removal of the natural occurring trace amounts of THC from the oil, while maintaining the broad spectrum of non-intoxicating cannabinoids and synergistic compounds such as CBG, CBN, CBC and over 40 naturally preserved terpenes.

We utilize a rigorous testing system: On-site chromatography, chromatography testing, and 3rd party batch testing to ensure accurate levels of phytocannabinoids and confirm the absence of THC through the proprietary processes. The result is the highest quality, THC-Free Hemp derived phytocannabinoid rich oil that contains no solvents, no heavy metals, and no pesticides.

GoGreen Hemp CBD Oil Tinctures

Our **Zero-THC CBD Hemp Oil** has absolutely no detectable levels of THC. This allows our unique hemp oil to be distributed not only all over the country, but also into global markets that have a zero tolerance for any detectable levels of THC. Our rigorous extraction and purification process produces a broad spectrum oil, containing all cannabinoids and terpenes found in hemp, minus the THC.

CHILD RESISTANT PACKAGING

GoGreen Hemp CBD Nano-Tinctures

Our **GoGreen Hemp Nano-Tinctures** are made with water-soluble hemp extract in nano-emulsion form. This product is perfect for those looking for expedited relief. These tinctures work within minutes compared to hours of the generic oil tinctures. We recommended mixing these tinctures with other liquids because of the very potent taste. These tinctures are available in 250mg and come in Caramel and Unflavored.

Flavors Include: Caramel and Unflavored

Strengths Include: 250mg

GoGreen Hemp Gel Capsules

High Bioavailability

Our **CBD Hemp Oil Soft Gels** are created with our water soluble liquid with 7.5% CBD, along with other minor phytocannabinoids such as CBG, CBN, CBC and over 40 naturally present terpenes. These gel capsules are designed to have the maximum absorption and optimum bioavailability.

This water-soluble formulation is a nano-particulate delivery of micro-emulsions. The resulting bioavailability is 3-5 times greater than cannabinoids delivered in oil, leading to an enhanced biological response. These capsules have 25mg of CBD and 10mg of curcumin.

PRODUCT ATTRIBUTES

**Available in 10mg and 25mg
30 Capsules Per Bottle**
